

Succession Planning for Business Owners

How would your business continue if you weren't there? How would your taxes get filed if your accountant disappeared one day? Are you planning to leave your business to your kids or do you plan to sell it? Do you have a plan to make that happen? This workshop provides an introduction to succession planning, including: (1) Planning for expected and unexpected changes in key personnel; and (2) Creating strategies to ensure the long-term survival of the business. Specifically, we will discuss the transition process for a business owner who wants to pass a family business to the next generation, as well as the planning needed to set up a business sale and other exit strategies.

**Wednesday, April 20, 2011
8:30AM-9:30AM**

**Central LA Chamber of Commerce, Board Room
1118 Third Street
Alexandria, LA 71301**
